

PREDATOR

WINES

2020 SIX SPOT RED WINE, follows a holistic approach in winemaking. Some farmers believe that finding a ladybug with six spots signals a bountiful harvest. And, since ladybugs consume crop-damaging aphids, even the least superstitious grower welcomes them, six-spotted or not. Six Spot Red Wine is crafted from grapes grown in the renowned Lodi Appellation.

LODI, CALIFORNIA is ideally situated between the Sierra Foothills and the San Francisco Bay Delta and benefits from cool afternoon and evening breezes, producing world-renowned red varieties. The 2020 growing season started warm and dry leading to a fairly optimal summer. Fortunately, the arrival of a record-breaking August heat wave did not affect the Lodi crop, however it did keep the region 7% above the average heat index for the remainder of harvest. Combined with low rainfall led to a smaller crop which resulted in concentrated, intense flavor in the berries.

OUR COMMITMENT to sustainable growing practices helps ensure the health and vitality of our select vineyards. “Natural Predation” is an eco-friendly strategy to control harmful critters in the vineyards. Ladybugs, a natural insect predator, along with predator mites, feed on destructive aphids. Ladybugs would suggest pairing this Red Wine with fresh aphids or mites – but we recommend short ribs or a delicious Osso Buco.

WINE STYLE

A vibrant, sweet bouquet of blackberry, cranberry and cedar. Excellent oak integration provides velvety tannins that compliment flavors of cherry pie, rhubarb and warm baking spices.

BLEND

A delicious blend of 54% Petite Sirah, 25% Cabernet Sauvignon and 8% Zinfandel

ALCOHOL

13.5%

AGING

French oak

BOTTLE DIMENSIONS

Height 11.79”
Width 3.27”

CASE DIMENSIONS

39.5 pounds
Height: 12.50”
Length: 12.55”
Width: 9.45”

PALLET CONFIGURATION

42” x 48”
56 Cases Per Pallet
14 Cases Per Layer
4 Layers Per Pallet
